Students connected with employers, community service organizations, recruiters and graduate schools last week [at the Career Center's annual Career Fair](#).

October is a month for celestial spectaculars—a total eclipse of the Moon, and a partial eclipse of the Sun just two weeks later. The lunar eclipse will occur Wednesday with its maximum at 3:55 a.m. The full duration of the eclipse is about five hours, starting at 1:17 a.m. and finishing at 6:32 a.m. The partial solar eclipse begins on Thursday, Oct. 23 at 1:53 p.m. with the maximum eclipse at 3:17 pm. The partial eclipse ends at 4:33 p.m. and the whole event should be easily visible.
